(b) Memo dtd 6 Nov 63 to C/AS fr

1. I have reviewed your memorandum to the Chief, Audit Staff responding to his Report of Audit of the Supply Division as well as your memorandum to me describing actions you proposed to take to satisfy the audit exceptions. I am satisfied that the approach you are taking through the establishment of a systems analysis group is your most reasonable course of action.

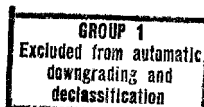

2. I am interested in ensuring that all of the Support components make the most effective possible use of electronic data processing systems and, since the supply system was among the first to adopt computer methods and is one of the more complicated, I am anxious to keep fully informed of your progress.

3. Would you, therefore, give me a full report before 10 January 1964 of the accomplishments made by the systems study group through the first two months of the study.
